

Thursday 29th October 2015 | Ely Cathedral

6.30pm for glass of wine | 7pm key note Speech & discussion

All welcome

ELY CATHEDRAL
BUSINESS GROUP

Ely Cathedral Business Group *Autumn Discussion*

The role of innovation and agricultural science in addressing 21st century Global Development challenges. Does business have a role?

Key note Speaker

Professor Wayne Powell BSc, MSc, PhD, DSc, FLSW

Chief Science Officer of Global Agricultural Research Partnership CGIAR

Ely Cathedral Business Group believes that there is a strong correlation between the health of the business sector, and the well-being of the communities in which those businesses operate.

The purpose of ECBG is to explore this relationship and to strengthen the correlation: to help businesses succeed and thereby make our communities stronger.

CGIAR Vision: A world free of poverty, hunger and environmental degradation.

CGIAR Mission: To advance agri-food science and innovation to enable poor people, especially poor women, to increase agricultural productivity and resilience, share in economic growth, feed themselves and their families better, and conserve natural resources in the face of climate change and other threats.
